

CAPITAL RAISING OF \$3.25 MILLION TO FUND NAPIÉ GOLD PROJECT EXPLORATION

HIGHLIGHTS

- Mako Gold receives binding commitments for a Placement to raise c.\$3.25M, that includes an acceptance of oversubscriptions of c.\$1.25M
- Firm commitments were received for in excess of \$6.4M indicating strong demand
- The Placement was supported by new and existing institutional and sophisticated investors for Mako's exploration strategy to unlock value from its flagship Napié Gold Project in Côte d'Ivoire
- The Placement positions Mako with a strong cash balance of c.\$4.8M¹ to execute a systematic exploration and growth strategy that aims to extend existing high-grade mineralisation, test multiple high priority regional prospects and deliver a maiden Mineral Resource Estimate

Mako Gold Limited ("Mako" or "the Company"; ASX:MKG) is pleased to announce that it has received binding commitments for a two tranche Placement to raise \$3.25M before costs (**Placement**). The Placement will comprise the issue of 65M new fully paid ordinary shares in Mako at an issue price of 5.0c per share as follows:

- Tranche 1 of the Placement, comprising up to 11.3M New Shares (~\$0.60M), is not subject to shareholder approval and will fall within the Company's placement capacity under ASX Listing Rule 7.1 and 7.1A ("**Tranche 1**")
- Tranche 2 of the Placement, comprising up to 53.7M New Shares (~\$2.65M), will be issued subject to Shareholder Approval at a General Meeting to be held on or around early July ("**Tranche 2**")

The Placement was strongly supported by existing shareholders and introduced a number of new, high quality domestic and international investors to the Mako share register. The significant interest received provides strong validation of the Company's flagship Napié Project and Tier-1 exploration team that has demonstrated track record of success in West Africa (discovered in excess of 2.6Moz of gold for ASX-listed Orbis Gold leading to a subsequent c.\$180M takeover by TSX-listed African gold producer SEMAFO).

Together with existing cash reserves (\$0.6M) and the proceeds from the recent divestment of the Niou Project (\$1.1M)¹, the Placement ensures Mako is well funded to execute a systematic exploration and growth strategy that aims to extend existing high grade mineralisation, test multiple high priority regional prospects and deliver a maiden Mineral Resource Estimate. The funds will also be used to cover corporate costs and general working capital requirements. Drilling is expected to commence in early July and continue through the remainder of 2020.

¹ Cash reserves of \$0.6M as at 31 March 2020, receivables of A\$1.1M (US\$0.7M) from the divestment of the Niou project as announced 1 May 2020 and net proceeds of c.\$3.0M from the Placement.

Mako's Managing Director Peter Ledwidge commented:

"The overwhelming demand from institutional and sophisticated investors is a strong endorsement of Mako's flagship Napié gold project and its exploration team. This capital raising provides us with balance sheet support for our extensive exploration program at Napié that aims to extend the shallow, high grade mineralisation discovered to date and test multiple highly prospective regional prospects. With a strike length of 30km, multiple mineralised structures and less than 10% explored to date, we believe the Napié has potential to host multi-million ounce gold deposits. We are pleased to welcome a number of new sophisticated and institutional shareholders and thank our existing shareholders for their continued support."

PLACEMENT DETAILS

The issue price of 5.0c represents a 18.0% discount to Mako's last close on 25 May 2020 of 6.1c, a 21.9% discount to the 5-day VWAP of 6.4c and a 13.8% discount to the 15-day VWAP of 5.8c.

Placement Shares will rank equally with existing fully paid ordinary shares. Settlement of Tranche 1 of the Placement is expected to be completed on Wednesday, 3 June 2020. Settlement of Tranche 2 of the Placement is expected to be completed on or around early July and is subject to Shareholder Approval at a General Meeting to be scheduled on or around early July.

Tranche 1 of the Placement has been conducted pursuant to the Company's existing Placement capacity under ASX Listing Rules 7.1 and 7.1A. A total of 11,234,225 new shares will be issued under Listing Rule 7.1 and 100,650 new shares will be issued under Listing Rule 7.1A.

Discovery Capital Partners acted as Lead Manager to the Placement.

ABOUT MAKO GOLD

Mako Gold Limited (**ASX:MKG**) is an Australian based exploration company focused on advancing its flagship Napié Gold Project in Côte d'Ivoire located in the West African Birimian Greenstone Belts which hosts more than 70 +1Moz gold deposits. Senior management has a proven track record of high-grade gold discoveries in West Africa and aim to deliver significant high-grade gold discoveries at the Napié Gold Project.

Mako Gold entered into a farm-in and joint venture agreement on the Napié Permit with Occidental Gold SARL, a subsidiary of West African gold miner Perseus Mining Limited (ASX/TSX:PRU). Mako currently own a 51% interest in Napié and has the ability to earn up to 75% interest through the delivery of a Feasibility Study².

In addition, Mako Gold has two exploration permit applications covering cover 17km of faulted greenstone/granite contact (high-grade gold targets) located within 30km of Barrick's operating Tongon Gold Mine (4.9Moz Au).
